FEATURES

QuadTec II – The new QuadTec II delivers what woodworkers want most in a compact package by providing a quiet, long-lasting performance with its 26 carbide. The carbide inserts last longer than traditional planer knives and are 4 sided to provide a fresh cutting edge when rotated. The QuadTec II is a game changer when pla

2 HP Motor – The 2 HP motor provides plenty of power for this Best-in-Class benchtop planer. The motor spins the cutterhead at 10,000 RPM to provide the smoothest possible finish

Pull Out Extensions – The pull-out extensions and flip-down extensions make it easier to feed stock through the machine

PX12 SPECIFICATIONS

Motor:	110V 2HP Universal 50/60Hz/15 Amp
Circuit Requirement:	20 Amp
CSA:	Yes
Bed Size:	12-1/2" x 10-1/4"

Thickness Readout:	Hair Line Readout
Dimensions Set Up Approx:	24" x 34"
Dimensions Shipping:	25" x 17" x 21-1/2"
Net/Ship Weight:	65/72 Lbs.

QUADTEC: II

New and Improved QuadTec: II Is Designed To Offer An Amazing Finish On The Most Difficult Species Of Wood

The inserts are solid carbide (14x14x2mm) so they can be rotated 4x to extend the already longer life Compared to HSS. The inserts are mounted on a straight line requiring less machining thus saving cost. The QuadTec: II is also quieter than conventional straight knives. Each insert is indexed requiring no jig when rotating or replacing.
